Certificate Course in Dental Prosthodontics

The Certified Course in Dental Prosthodontics is designed to equip individuals with the essential skills and knowledge required to function effectively as technicians or assistants in a dental prosthodontics laboratory or clinic. This six-month program focuses on the technical aspects of prosthodontics, including dental materials, impression making, model fabrication, and the construction of various prosthetic appliances.

Program Objectives

- -To provide comprehensive training in dental prosthodontic materials and techniques.
- -To develop skills in impression making, model fabrication, and denture construction.
- -To impart knowledge of oral anatomy and occlusion relevant to prosthodontics.
- -To instill a strong foundation in laboratory procedures and quality control.
- -To prepare graduates for entry-level positions in dental prosthodontics laboratories or clinics.

Eligibility

- Minimum 12 years of education

Mode of Teaching

The program will be delivered through a combination of:

- Lectures
- Practical workshops
- Case studies
- Research projects
- Online learning (if applicable)

Fee Structure

- PKR 75K/
- Installment Available

Duration:

- 6 Months
