Postgraduate Diploma in Dental Technology

The Postgraduate Diploma in Dental Technology is designed to enhance the knowledge and skills of dental technicians, equipping them with advanced competencies in the field. The program focuses on the latest advancements in dental technology, materials, and techniques, enabling students to excel in their profession and contribute to the delivery of high-quality dental care.

Program Objectives

- To provide advanced theoretical and practical knowledge in dental technology.
- To develop critical thinking and problem-solving skills for complex chair side dental cases.
- To enhance clinical decision-making abilities and collaboration with dental professionals.
- To foster research and innovation in dental technology.
- To prepare graduates for leadership roles in the dental technology industry.

Eligibility

- Minimum 12 years of education

Mode of Teaching

The program will be delivered through a combination of:

- Lectures
- Practical workshops
- Case studies
- Research projects
- Online learning (if applicable)

Fee Structure

- PKR 125K/- per year
- Installment Available

Duration:

- 1 year

Potential Career Paths:

- Senior Dental Technician: Graduates can take on leadership roles within dental laboratories, overseeing the production process and ensuring quality control.
- Specialist Dental Technician: Specializing in areas like orthodontics, prosthodontics, or implant dentistry allows for focused expertise and career advancement.
- Research and Development: Graduates can contribute to the development of new dental materials, techniques, and technologies.
- Dental Technology Educator: Sharing knowledge and expertise by teaching in dental technology programs.
- Clinical Dental Technician: With additional training, graduates may pursue roles involving direct patient interaction, such as orthodontic therapists or clinical dental technicians.
- Entrepreneurship: Starting a dental laboratory or related business.
- Sales and Marketing: Promoting dental products and services.

Course Layout and Scheme of Study

The diploma in dental technology is a 1 year programme with 2 semesters of 6 months each. First semester will be focusing on the basic dental knowledge and second semester will be focusing on the clinical dental practices.
